Testimonials:

*“...Armed with all the knowledge I needed, I was able to help my Dad make the decision to finally move into a lovely assisted living residence. In fact, within 2 weeks (yes, just 2 weeks!) of buying **The Ultimate Caregiver’s Success System**, I was able to accomplish what I had struggled with for months. It is a good fit as he seems to be thriving there and I am tickled pink.”*

—Gail P., New York

*"...From the very first moment of the very first one (audio CD) I kept saying "That's it! That's exactly it!" (How do you know my Dad?) They completely rounded it all out for me. With **The Ultimate Caregiver's Success System**, we are finally resolving issues that my father wouldn't even talk to me about before."*

—Rochelle A.

*"...As a result of **Ultimate Caregiver's Success System**, this year was the first year that our whole family was together for Mother's Day in 8 years! I know both of us hold our Mon's hand with gratitude and thanksgiving..."*

—Pam S., Atlanta, GA

"...My mother was literally going crazy trying to help her parents and my father's parents. It was so painful to watch, especially since I'm away at college and couldn't do much to help...I got it for her for Mother's Day and it was the best present I could have ever gotten her! In fact, for the first time since she started caring for her father, he is actually doing what's best for him - and he's doing it willingly! That's the truly amazing part! I know it's what you said would happen but he's so stubborn, no one believed it really would. Now my mother is smiling again. She even carries the Success Guide around with her everywhere she goes!..."

—Angela S., Katy, TX

*"I can't thank you enough for your **Ultimate Caregiver's Success System**. In putting together a support group, I spent hours extracting information wherever I could find it. Coming from a nursing background it is difficult for me to deal with situations where you can't formulate a plan of action, implement, and evaluate. The nurse in me just doesn't go away that easy, and it frustrates me. Then I found your Success System, and there was all the information we needed in 1 place! Best of all, it was laid out in a way that anyone can follow regardless of the issue you're dealing with at that moment. I can't believe how easy it is to follow. And I love the CD with all the forms, so I can share them with the whole group. Now I can move forward and get this going. But I have to admit, I'm the one benefiting the most!..."*

—Patty T.

*"Dealing with complex family issues is not an easy task. After getting your **Ultimate Caregiver's Success System** I was able to approach every single situation I was presented with confidence. I can't believe it but after 11 years we are finally working together and making fast progress. I truly could not do it without your program..."*
